## about us

Clarion Bathware is privileged to become a supplier for  
Champion Modular Homes and the Excel Homes Brand.

The company was established in 1973 and has progressively become a major supplier to the modular home industry and the wholesale markets with residential and assisted living fiberglass bath fixtures.

Through continuous improvements in the manufacturing process and materials, today's products far exceed the performance standards of the past and raises the bar for quality and long-term endurance. The Armorcore™ technology and Acrylx™ finish are some of the most significant industry improvements and will provide added value to the homeowner for many years.

## features & benefits

### ARMORCORE

In the hard fought battle to protect resin-reinforced bath products from the hazards of transportation, installation and daily use, Clarion has time and again pioneered methods to build stronger, more resilient bath units.

With ARMORCORE™, we've changed the game. Years in the making, this exclusive technology turns layers of material into a single, solid structure that withstands a thousand pounds of pressure without breaking a sweat. It's a breakthrough that redefines bath manufacturing and advances the entire industry.

#### Chemically Bonded

Unlike wood or corrugate, ARMORCORE's™ resin-based formulation chemically bonds to layers of fiberglass lamination forming a rock-solid single-piece structure.

- Eliminates separation
- Impervious to moisture and freezing
- Bottoms tested to 1000lbs of pressure with no cracking.

## features & benefits

### AcrylX

AcrylX™ has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. We've upgraded the value of the everyday product.

Whether in a warehouse or a new house an AcrylX™ product will resist scratching, cracking and chipping and will maintain a "factory-new" finish over its lifetime.

AcrylX™ UV properties resist fading, low porosity helps maintain luster and makes cleaning easier, and other natural properties make it less susceptible to chemicals. All enhancing value and reducing everyday issues.

AcrylX™ with the strength of ArmorCore™ eliminates the hassle of damages.
